

PCA Announces Sustainable Winners

The Portland Cement Association, Skokie, Ill., recently announced its 2009 Sustainable Leadership Award winners. Six public officials, who represent environmental, economic, and social aspects of sustainable construction, were honored.

The 2009 winners are Wayne Kennedy, director of development and engineering, Coweta County Development and Engineering Department, Newman, Ga.; Dale L. Ludens, engineering supervisor, South Dakota Department of Military and Veterans Affairs, Rapid City, S.D.; James McGraw III, chairman, Fairfield County Transportation Committee, Rion, S.C.; Michael A. Nutter, Mayor, City of Philadelphia; Board

of Commissioners of Queen Anne's County, Centreville, Md.; and City of Highland, Calif. Visit www.cement.org for project details and more information on each winner.

Breaking \$1 Million in Donations

Donations to the Concrete Industry Management (CIM) program recently eclipsed \$1 million, according to Douglas K. Guerrero, chairman of Chico State CIM Patrons, Chico, Calif. This achievement happened due to generous donations to the program from 110 corporate and 36 individual gifts over the past three and a half years.

Support for this program benefits the business-intensive curriculum focused

on concrete business management.

To learn more about CIM, go to www.concretedegree.com.

Seeking Papers for 2010 Conventions

ACI, Farmington Hills, Mich., currently is seeking papers for sessions taking place during the ACI Spring 2010 Convention in Chicago and the ACI Fall 2010 Convention in Pittsburgh.

Interested participants are invited to submit abstracts for two sessions: "Adhesives and Adhesive Anchors for Use in Concrete" and "Corrosion Resistant Reinforcement—Current Performance and Alternative Materials," due Nov. 1 and Nov. 30, respectively.

More information can be found at www.callforpapers.concrete.org. **CC**
